

introduced me to JOOF after doing some laboratory investigations. He operated on me in Highland Specialist Hospital, Ibadan. Thank God for JOOF. I could have lost my eye because the money I had could never finance the surgery.

Esther Akinkunmi

I am a 17 years old with a troublesome swelling on my face at the cheek. I had sought for help in all places and when I presented myself in one of the outreaches at Iganna under JOOF. Segun-Busari, Segun, the doctor that reviewed me said it was not a problem and operated on the mass and removed it. The operation is Lateral rhinotomy. My face is fine now. Glory be to God. JOOF, thank you for the sponsorship.

JOHN OYEDIRAN OLABISI FOUNDATION

THIRD EDITION NEWSLETTER OF JOHN OYEDIRAN OLABISI FOUNDATION (JAN. 2025)

CHAIRPERSON'S SPEECH

We are saying thank you Jesus, thank you our Lord, we are saying thank you Jesus, thank you our Lord.

I bless the name of the Lord for seeing us through another year successfully. John Oyediran Olabisi Foundation (JOOF) was launched by his family on January 13, 2022, which was the first anniversary of the demise of Dn. Dr. John Oyediran Olabisi to continue his legacy of service and generosity.

I join all our family members, friends and partners to appreciate God for His grace and mercy through which we were able to fulfil our vision which is to transform the lives of individuals and communities through health and education. I thank you for your generous contributions in cash and in kind which have enabled us to put smiles on the faces of many people despite the economic problems in Nigeria. Let me appeal to those who are yet to fulfil their pledges to kindly do so and also invite other kind-hearted people who are able to join us to do this noble work.

TESTIMONIALS

I give thanks to God for the JOOF Ministry. I am a widow and for the past three years, this ministry has been helping me and my children.

Last two years, I have been praying to God, concerning my son's admission to the University and the payment of his tuition fees, because I was told by his sister, who is in 300 level at this same University LAUTH Ogbomosho that the tuition fees would be increased by 40%. So I kept telling God to intervene concerning this.

To God be the Glory, my son was given admission last year October to this University and the tuition fee was very high. I needed to pay his sister's fee also, but I blessed God for the support of this JOOF. I am using this medium to say a Big thank you to this ministry. I pray that God will continue to uphold her in Jesus name. Amen.

Mrs Taiwo Alabi

My brother and I are eternally grateful for your extraordinary kindness, compassion and unwavering support during our most challenging times. Your financial assistance was a divine intervention. When my mother fell ill, your timely aid helped cover her hospital expenses, easing our burden. Though we lost her but your support brought comfort when there was no one we could run to.

JOO foundation continued empowerment, covering our tuition fees as students and this has been instrumental in our education. Your generosity and selflessness has significantly impacted our lives. We're indebted to your organization and even words cannot express how grateful we are. Thank you so much. We are really grateful.

Igwilo Tochukwu Augustine

As a widow I want to thank John Olabisi foundation for their support financially throughout the year for my upkeep and my daughter's education. Jehovah has used you to better so many people's lives. I pray that God will continue to bless John Olabisi foundation for their kind gesture towards me. Thank you and God bless you.

Mrs Pascaline Chinyere Arogun.

OOAMBSH, A BEACON OF HOPE

OOAMBSH started operations on the 1st of March, 2022. It was at a time when the citizens of Iganna land and its environs had lost hope on having accessing to quality health care. This led us towards our vision of being the preeminent healthcare provider for the communities we serve. Thus far, OOAMBSH has been offering a broad range of clinical services that are evident based upon the 4,175 patients that have received treatment in our facility till date.

We had superior clinical outcomes and the highest level of satisfaction from the 79 deliveries recorded in our facility thus far. As part of our mission in improving the health and wellbeing of individuals and preservation of lives in the communities we serve. Series of E.N.T outreaches were organized in which 298 patients had the opportunity of being treated at a very affordable discounted rates. We equally have been providing high quality, cost effective and compassionate services to all regardless of religion, tribe, and nationality.

OOAMBSH is a shining beacon of hope that will continue to grow and flourish as it provides affordable medications, laboratory and ultrasonography compared to other hospitals of its status. We look forward to revealing more healing presence of God as evident from the 52 successful surgeries of various types on patients we have carried out in our health facility till date. We transfer major surgeries that need the service of an anaesthetist to Highland Specialist Hospital, Ibadan. Long will the hospital reign, Amen.

Medical Director of Oba Olabisi Alabi Memorial Baptist Specialist Hospital, Iganna

I have had a change in voice for a period of 13 years and it was getting progressively worse over the past twelve months until I met Dr. Segun-Busari Segun who introduced me to JOOF and arranged for my voice surgery. The fee was highly subsidized. My voice has returned to normal and the mass that was removed from my voice box was sent to the laboratory. I thank God that it was not cancerous. With this help from JOOF I can now interact well with my customers. Glory be to God.
